

Inside Tag/Labels

Adhesive Labels & Clear Plastic Sheets

Inside this envelope are label tags to use inside your luggage. Find a flat clean surface inside each of your bags to attach these. They have pressure sensitive adhesive. Remove the backing paper. After installation, remove the backing paper from the clear plastic sheets one at a time and center over the labels. Press down and firmly rub over the plastic and label to achieve full bonding. (Expansion kits are available at BPPRN.com.)

Thank You for Your Purchase.
